*Presenting the Pardes Humanitarian Prize in Mental  
Health and the Outstanding Achievement Prizes*

## THE PARDES HUMANITARIAN PRIZE IN MENTAL HEALTH

This international Prize recognizes a physician, scientist, public citizen or organization whose extraordinary contribution has made a profound impact on advancing the understanding of mental health and providing hope and healing for people who are living with mental illness. Established in 2014 and awarded annually, the Pardes Humanitarian Prize is named in honor of Dr. Herbert Pardes, the first recipient of the award.

The recipient of the Prize is chosen by a distinguished international Selection Committee from nominations solicited worldwide and receives an honorarium. The Pardes Humanitarian Prize focuses public attention on the effects of mental illness on individuals and society and the urgent need to expand and enhance mental health services in the United States and globally.

This year's awards ceremony will honor **William T. Carpenter, Jr., M.D.** a luminary in the field who has tirelessly advocated for resources for research on mental illness and for reducing stigma. His vision, scientific productivity, leadership, and advocacy have shaped our understanding of schizophrenia and other forms of serious mental illness and had a broad, positive impact on our society.

The ceremony will also include a special tribute to **Cynthia Germanotta** and **Born This Way Foundation** for their extraordinary accomplishments and their commitment to supporting the wellness of young people and empowering them to create a kinder and braver world.
