

**BRAIN & BEHAVIOR RESEARCH FOUNDATION
YOUNG INVESTIGATOR GRANT (YI)
2022 FACE SHEET**

APPLICANT INFORMATION *(Please fill out all relevant information below):*

Principal Investigator (Full Name):

Position Title:

Institution:

For M.D. Applicants, year residency was completed:

For Ph.D. Applicants, year degree was awarded:

Is this your second time applying for the YI Grant?

**Yes
No**

**For M.D./Ph.D. applicants please provide both years in the above designated areas.*

Mentor/Institution (Please list primary mentor name first):

Number of peer-reviewed papers (Total/ first authored/last authored):

Please identify all BBRF Scientific Council Members who will be in conflict with your application (i.e. your mentor, collaborators, same institution etc.). Completed list of members can be found [here](#):

****If no conflicts please list n/a***

APPLICATION INFORMATION *(Please fill out all relevant information below):*

Research Method
(Please check all that apply):

Imaging
(Please check all that apply):

Would you classify your research as more basic or clinical?

Please indicate whether you study:

Behavior

PET

Basic

Humans

Circuits

MRS

Clinical

Non-

Clinical Trials

MRI

Humans

Epidemiology

EEG

Both

Genetics

fMRI

Molecular

Structural

Neurostimulation

MRI

Pharmacology

Physiology

Systems

The Brain & Behavior Research Foundation is committed to alleviating the suffering caused by mental illness by awarding grants that will lead to advances and breakthroughs in scientific research. We invest in the most innovative ideas in neuroscience and psychiatric research to better understand the causes and develop new ways to treat brain and behavior disorders.

BBRF supports research for severe mental illnesses. The following list is illustrative.

Area(s) of Study

(Please select from the response that best fits your submitted application):

Addiction
ADHD
Anxiety Disorders
Bipolar Disorder
Borderline Personality Disorder
Depression
Eating Disorders
OCD
PTSD
Schizophrenia
Suicide
Other

Some disorders such as Autism, Alzheimer's Disease, and Parkinson's Disease are supported by BBRF only if primary psychiatric disorders are included in the research design. Transdiagnostic designs involving several disorders are welcome.

Below, please explain how your project and, if appropriate, the study population fit the Foundation's mission (**250-word limit**):

Diversity Statement (optional)

The Brain & Behavior Research Foundation is interested in advancing the career and science for those of different backgrounds. The Foundation welcomes diversity with Grant Applications including gender, race, ethnicity and culture of the applicant and geographic location for their proposed work.

If you wish to have a diversity statement then please limit it to 50 words or less.
